FYI: Did you know the average price for membership in a home inspection association in Canada is approximately \$500+ per year? Now let's say you compare that over a 5 year period with the NHICC. That equates to a difference of $5 \times \$500 = \2500 versus the initial first year at $\$600 + (4 \times \$125 \text{ for renewals}) = \1100 with the NHICC. BTW: This also includes your exam fees (except for BC). (Administrative Contract fees are less). Fees may be paid individually or as a package total.
