National Home Inspector Certification Council

OVERVIEW

The **National Certification Program for the Home & Property Inspectors** provides a valuable means to measure performance of the person against an approved standard. There are three stages to the NHICC National Certification Program for Home and Property Inspectors:

Candidate/Provisional: The candidate/provisional stage acts as the entry point for individuals who have received training as home inspectors into the National Certification Program. The candidate stage provides a mechanism to oversee the activities of the individuals who are already working in or are interested in working in the home inspection occupation. Provisional provides an interim level for candidates that have attained a higher level of points, thus a shortfall to achieving NHI status.

National Home Inspector: The NHICC National Home Inspector is a certification title in the National Certification Program. In order for an individual to become a National Home Inspector, the individual must meet the requirements for individuals at this stage as defined in the National Certification Program. **The purpose of achieving the NHI** designation is intended for those individuals who are actively practicing as home and property inspectors that meet the national home inspection standard benchmarked to the endorsed National Occupational Standards for Home & Property Inspectors.

GRAPHIC OVERVIEW OF THE NHICC NATIONAL CERTIFICATION PROGRAM PROCESS

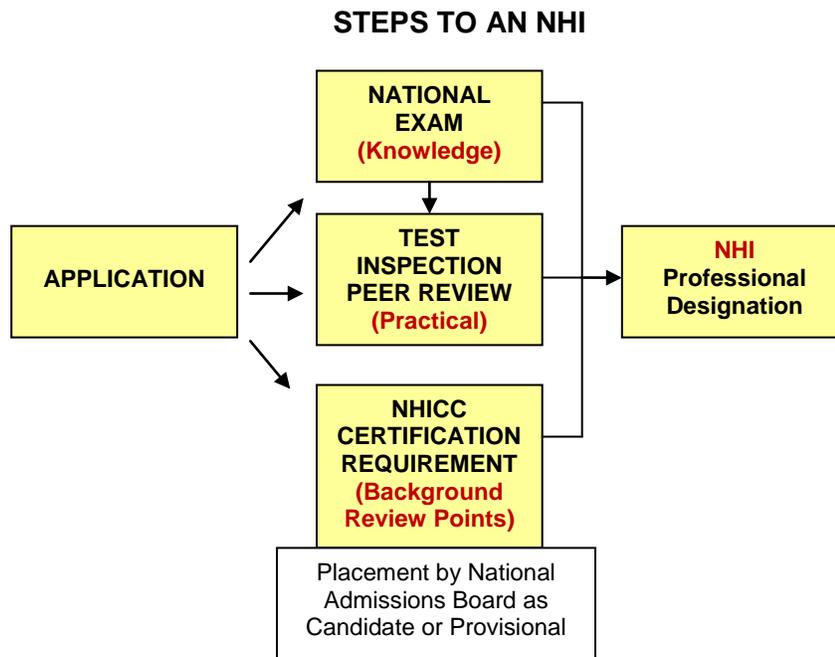

National Home Inspector Certification Council

This approach allows both new and knowledgeable inspectors an opportunity to gain experience while working within the National Certification Program. This allows the National Certification Body (NHICC) to exercise a degree of regulation over the practice of those individuals at the candidate/provisional stage, while recognizing their achievement along the way.

Currently British Columbia and Alberta are the only provinces in Canada that has regulation in effect that license home inspectors. Several other provinces are considering regulation.

The NHICC presents an independent and transparent third party certification organization to assure a fair and open process for all home inspectors regardless of association. The NHICC certification is the only recognized certification designation that has gained approval in both British Columbia and Alberta for licensing home inspectors.

BACKGROUND REVIEW

To determine where an individual fits within the **National Certification Program**, an assessment process called a **'background review'** is used. Background review is the process that the NHICC National Admissions Board (NAB) uses to determine if an individual should be within program, and if so, at what stage. An individual, who wants to be considered for any stage, would apply to the **NHICC National Certification Council** and present their personal background. An individual's personal background would be presented through a structured application form completed by the individual, which may be supplemented if necessary through an interview.

The criteria used to assess an individual during the background review process are presented later in this document. This includes benchmarking the individuals "background" against the structured evaluation system based on awarding merit points for documented achievements.

The **NHICC National Admissions Board** uses the information provided by the applicant on the application to determine the "placement" of the individual into the NHICC National Certification Program. Points are given to specific types of appropriate inspection related training, experience and competence.

National Home Inspector Certification Council

A word on grand parenting - Due to the comprehensive nature of the certification process, the CHIBO Working Committee (Canadian Home Inspectors & Building Officials) decided that the National Certification Program for HPI occupation **“needed to be rigorous and defensible”**.

As a result, the Working Committee determined that the National Certification Program for Home and Property Inspectors **does not include a grand parenting or grand-fathering component**. Instead, any individual who is interested in becoming part of the National Certification Program would present their personal background to the NHICC National Certification Council for background review. The NHICC **National Admissions Board** would make the final decision on whether to place the individual within the National Certification Program, and if so at what stage.

NATIONAL OCCUPATIONAL STANDARDS

The competency requirements for home and property inspectors are defined in the National Occupational Standards. The (NOS) National Occupational Standards performance standards identified the skill sets and provided the background to establish a testing process to allow home and property inspectors to be legitimately certified as competent and qualified professionals. To facilitate the understanding of the nature of the occupation, the work performed by home and property inspectors is divided into blocks, tasks, sub-tasks and supporting knowledge and abilities.

A key component in determining the criticality of the tasks identified in the **NOS is Task Priority Analysis or TPA**. TPA is an assessment technique that is used to help determine which tasks are critical in the NOS and **MUST** be evaluated as part of the certification process. The TPA allows for the rank ordering of tasks based on their importance, and allows for recommendations on which tasks **MUST** be evaluated under the certification process. This is assessed through the National Home Inspector Exam as well as the Test Inspection/Peer Review process.

ETHICS & PROFESSIONAL STANDARDS

Key mechanisms of the NHICC National Certification Program are the ‘ethics and professional standards’.

Ethics and professional standards provide the public with assurance that individuals who are within a NHICC National Certification Program will abide by a set of rules and be governed by standards of practice that are enforceable. This component of national certification is part of the ISO Standards criteria for Certification Bodies.

The NHICC endorses the ASHI, CAHPI & AIBQ Code of Ethics and Standard of Practice for the HPI occupation as the minimum performance standards for all Candidates and National Home Inspectors. Optionally the CSA Home Inspection Standards are accepted.

Ethics and professional practice provides the public with assurance that the individual within the NHICC National Program will abide by a set of rules and governed by standards of practice.

NATIONAL HOME INSPECTOR CERTIFICATION COUNCIL

The **National Certification Program certification** is overseen by the **National Home Inspector Certification Council**. It is primarily the main Board of Directors of the corporation, plus initially appointed regional representatives.

Although CAHPI now as a home inspection association also accepts members into their version of the National Certification Program, we point out that their version is a water-down version of the program. In our view and comparison the NCH designation does not equate to the “certification standards” of meeting the National Certification Program.

National Home Inspector Certification Council

The **(NHICC) National Home Inspector Certification Council** is a national organization dedicated to recognizing and upholding the **National Certification Program** and the National Occupational Standards for Home & Property Inspectors in Canada. The NHICC oversees the final ratification of all Candidates/Provisional's that meet certification requirements, contributes to the maintenance of the certification process, and ensures that National Home Inspector abides by the Code of Ethics and Standards of Practice.

The **NHICC received approval by the Construction Sector Council of Canada as well as CMHC to become the National Certification Body and create a National Certification Council with a National Admissions Board.** The NHICC National Certification Council is empowered with the authority to ratify the certification of individuals as being competent to practice or work within the home and property inspection occupation. The development and administration of the National Certification model for Home & Property Inspectors, and the authority to certify resides at the national level.

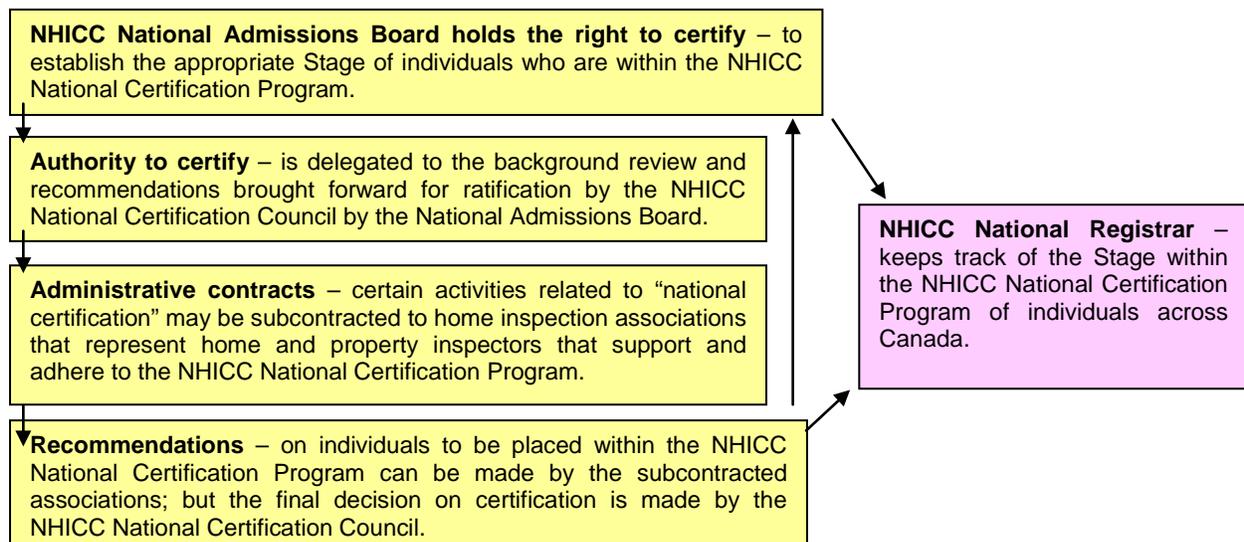

Certifications are awarded based on the evaluation of an individual's competency level and expertise compared to the National Occupational Standards (NOS). As previously noted - the (NOS) National Occupational Standards performance standards identified the skill sets and provided the background to establish a testing process to allow home and property inspectors to be legitimately certified as competent and qualified professionals.

To qualify for the NHI designation a candidate must satisfy background requirements for education, supervised field training, and practical home inspection experience and adhere to professional practice. It is important to note, national certification may not be recognized as valid within a province or be deemed sufficient to practice or work within a province, where licensing or regulations prohibit such work.

NATIONAL ADMISSIONS BOARD

The **(NAB) National Admissions Board** is comprised of the NAB Chair (must be a NHI), two "Public Member" (person who represents the direct and indirect users of certificants' skills or service representatives) and a team of elected NHI's (National Home Inspectors) that are charged with receiving, reviewing and the placement of the applicant into their appropriate level with the National Certification Program. The final decision on placement and certification of the inspector is ultimately the decision the National Admissions Board based on the evaluation of where the applicant's background is mapped to the certification requirements.

ISO criterion does not allow decisions on certification to be subcontracted. However, other organizations could provide the National Admissions Board with recommendations as to whether specific individuals meet the background requirements of the National Certification Program. Such agreements are only established formally and underwritten as Administrative Contracts and are subject to specific terms of endorsement that includes the right to audit.

National Home Inspector Certification Council

NATIONAL REGISTRAR

The **NHICC National Registrar** is responsible for recording and tracking individuals who are within the NHICC National Certification Program. The National Registrar is also responsible for maintaining the integrity and confidentiality of the data and personal information contained in the database as well as ensuring that the register of certified individuals is kept up to date and open for public scrutiny, upon written request and a pre-arranged appointment.

CERTIFICATION ELIGIBILITY REQUIREMENTS

To qualify for the NHI Certification a candidate and/or provisional member must satisfy specific certification requirements. These include:

1. **Personal Background (review)**
2. **Education**
3. **Fee Paid Inspections & Supervised Field Training**
4. **Exams**
5. **Error & Omission Insurance – “required” where mandated by regulation or licensing**

To determine where an individual fits within the National Certification Program, an assessment process called a “background review” is used. The purpose of the background element is to review the personal history and experience of individual members as a component of the certification process. Reviewers assess an individual’s background, including years of experience, relevance of experience, specific training and education against the certification criteria for certification and indicate the degree of compliance. The background review permits the National Admissions Board to determine at what stage should be within the certification program.

At a minimum, training providers must demonstrate that they are legitimate, can demonstrate an adequate process for maintaining instructional standards, and maintain an adequate process for verifying the competencies of trainees. Canadian chartered training providers and institutions are deemed accredited for verification of accepted training providers. Thus all chartered Canadian universities, community colleges and technical institutes have proven they are legitimate centres of learning.

1. Personal Background

Consideration is given to an individual's personal background such as degrees, post-secondary diplomas, trade licensing, certificate of qualification, etc. This should be relevant to the designation sought.

Membership in a recognized home inspection association may also be used in this category.

Copies of relevant documents are required with the application.

2. Education

The National Occupational Standards requires practitioners to be skilled in diagnosing the condition of buildings based on a visual inspection. The work requires that an individual have a sound education in building science as well as training pertaining to inspection and diagnostic techniques.

All applicants are required to attain relevant formal education and training for home inspection. A certificate or diploma from a recognized training provider is required for recognition of formal education and training.

Education and Training is divided into two categories. The first category evaluated is training offered with successful completion of formal proctored exams and the second category being training offered without exams, or more specifically without proctored exams.

National Home Inspector Certification Council

The NHICC National Admissions Board recognizes the successful completion of NHIE (National Home Inspectors Exam) in lieu of training offered without exams or without proctored exams.

The passing grade for all exams is 80%. It can vary where licensing applies.

Copies of relevant documents are required with the application.

Recommended Home Inspection Education/Training

NOS BLOCK A-F	Min. # of Hours	Applicants Doc's
A. Professional Practices	24	
B. Exteriors	40	
C. Interiors	24	
D. HVAC	40	
E. Plumbing	40	
F. Electrical	40	
G. Structural	40	
H. Supervised Work/Mentoring	50	
Total	298	

3. Fee Paid Inspections & Supervised Field Experience

The technical experience requirement is assessed in this category. The number of complete home inspections is used to satisfy practical field experience. In addition, the total length of time working as a home inspector, and the frequency of (total number of inspections per year) are assessed.

The quality can be assessed by review and confirmation that the inspection report provides by validating if the report meets the required Standards of Practice, and whether the conditions reported satisfy the accepted benchmark.

Supervised field experience or mentoring is a critical part of the training and assessment process.

4. Exams

The purpose of competency testing is the verification of the candidate's knowledge against specific portions of the NOS. There are two (2) major and separate components. These include (1) home inspection subject matter knowledge base – tested by the National Home Inspector Exam and (2) the (TIPR) Test Inspection with Peer Review – the practical on-site home inspection test with inspection report verification.

Where an applicant can provide evidence of completing the above, the appropriate exam portion may be waived and considered in lieu of the specific exam.

5. Error & Omission Insurance

Where it is mandated "Error & Omission" insurance is required to practice as a home inspector. Although some provinces/territories do not require this insurance, it is highly recommended as part of good business practice.

Insurance is a means of protection from financial loss. It is a form of risk management, primarily used to hedge against the risk of a contingent or uncertain loss.

National Home Inspector Certification Council

NHICC NHI (National Home Inspector)

NEW INSPECTORS

Step 1: Submit completed Application for Background Review.

Step 2: Provide copies of all relevant documentation.

Step 3: Need a minimum total of 950 points from all sections of the application.

Personal background:

- Applicants can earn up to 100 points through background experience.
- Degrees, diplomas, trade certificates that are relevant to the home inspection industry will be worth 50 per credential.
- Degrees or diplomas not related to the home inspection industry are worth 25 per credential to a maximum of 50 points
- **Maximum 100 points**

Education (Formal Training Courses):

- Can receive up to 600 points for education
- Up to 450 points for courses
 - Courses “with proctored” exams – 3 points per hour
 - Courses “without proctored” exams – 1 point per hour
- Mentored (supervised) field work – 3 points per hour - Maximum 150 points.
- Pass the NHICC National Exam and a TIPR (80% on both) plus inspection requirement to qualify to be an NHI.
- **Maximum 600 points**

Fee paid inspections:

- Qualify to be NHI if above requirements are met and:
 - In business for 1 year, and
 - Completed 150 inspections (1 point per home inspection)
 - Some NHICC approved mentoring could be substituted for inspections. (2 hours mentoring equal one inspection but minimum number of inspections would be 75)
- **Maximum 500 points**

Final Requirements:

- When all requirements are met including a TIPR and completion of a formal exam (where required) the individual can become a National Home Inspector (NHI) through the NHICC.
- When all education requirements are met except the TIPR, the individual can become a ‘Provisional’ National Home Inspector.
- Inspectors may stay in ‘Provisional’ category no longer than 24 months.

Insurance:

- Inspectors in the program are encouraged to carry adequate Errors and Omissions and CGL insurance coverage. This is only a mandatory requirement in jurisdictions that require inspectors to be insured.

National Home Inspector Certification Council

INSPECTORS ALREADY WORKING IN THE INDUSTRY

Step 1: Submit completed Application for Background Review.

Step 2: Provide copies of all relevant documentation.

Step 3: Need a minimum total of 950 points from all sections of the application.

Personal Background:

- Applicants can earn up to 100 points through background experience.
- Degrees and diplomas that are relevant to the home inspection industry will be worth 50 per credential
- Degrees, diplomas and trade certificates not related to the home inspection industry are worth 25 per credential to a maximum of 50 points
- **Maximum 100 points**

Education (Formal Training Courses):

- Can receive up to 600 points for education
- Up to 450 points for courses
 - Courses “with proctored” exams – 3 points per hour
 - Courses “without proctored” exams – 1 point per hour
- Mentored (supervised) field work – 3 points per hour - Maximum 150 points.
- Pass the NHICC National Exam and a TIPR (80% on both) plus inspection requirement to qualify to be an NHI.
- **Maximum 600 points**

If inspector is short in educational points but has worked 5 years and has passed the National Exam, he/she can earn:

- ✓ 80% on exam 200 points
- ✓ 85% on exam 225 points
- ✓ 90% or more on exam 250 points

Fee Paid Inspections:

- Qualify to be NHI if above requirements are met and:
 - In business for 1 year, and
 - Completed 150 inspections (1 point per home inspection)
 - Some NHICC approved mentoring could be substituted for inspections. (2 hours mentoring equal one inspection but minimum number of inspections would be 75)
- **Maximum 500 points**

Final Requirements:

- When all requirements are met including a TIPR and completion of a formal exam (where required) the individual can become a National Home Inspector through the NHICC.
- When all requirements are met except the TIPR and/or NHICC Exam, the individual can become a ‘Provisional’ National Home Inspector.
- Inspectors may stay in ‘Provisional’ category no longer than 24 months.

Insurance:

- Inspectors in the program are encouraged to carry adequate Errors and Omissions and CGL insurance coverage. This is only a mandatory requirement in jurisdictions that require inspectors to be insured.

National Home Inspector Certification Council

NEW CANDIDATES – BRITISH COLUMBIA

Note: This category is unique to British Columbia home inspectors who have not yet applied for licensing in BC. They will likely be new inspectors with little or no experience, but there will be some individuals who have previously been performing inspections. They need not currently be registered with the NHICC, but if not, in the immediate future, they should:

- Transfer or apply to the NHICC
- Submit completed Application for Background Review
- Provide copies of all relevant documentation
- Need a minimum total of 950 points.

Personal Background:

- Applicants can earn up to 100 points through background experience.
- Degrees and diplomas that are relevant to the home inspection industry will be worth 50 per credential.
- Degrees, diplomas and trade certificates not related to the home inspection industry are worth 25 per credential to a maximum of 50 points
- **Maximum 100 points**

Education (BC Consumer Protection Approved Formal Training Courses):

- Can receive up to 600 points for education
- Up to 450 points for courses
 - Courses with Proctored exams – 3 points per hour
 - Courses without proctored exams – 1 point per hour
- Mentored (supervised) field work – 3 points per hour - Maximum 150 points.
- Pass the NHICC National Exam and a TIPR (70% on exam, 80% on TIPR) plus inspection requirement to qualify to be an NHI.

If inspector is short in educational points but has worked 5 years and has passed the National Exam, he/she can earn:

- ✓ 80% on exam 200 points
- ✓ 85% on exam 225 points
- ✓ 90% or more on exam 250 points

Feed Paid Inspections:

There is a policy to process individuals in BC who are new to the industry but who need a license to perform fee paid inspections. In addition to or in conjunction with the above, applicants must:

- Pass the NHICC National Exam with a minimum mark of 70%.
 - If successful, they would be granted a 'Provisional' NHICC National Certificate and could qualify for a 'Transitional' license valid for 12 months.
 - If unsuccessful, they could rewrite the exam no sooner than 10 days after the first time but within 90 days.
- Successfully participate in a TIPR within 12 months of receiving their 'Transitional' license by an approved license holder recognized by BC Consumer Protection.
- If an inspector does not have enough inspections to receive their NHICC National Certificate, they may substitute some NHICC approved mentoring. (2 hours mentoring equal one inspection but minimum number of inspections would be 75)

Insurance:

- Inspectors in the program are required to carry adequate Errors and Omissions and CGL insurance coverage. This insurance is a pre-requisite for an individual to be licensed to perform home inspections in British Columbia.
- Proof of insurance coverage must be provided.

National Home Inspector Certification Council

HOME INSPECTORS - ALBERTA

NOTE: All home inspectors must meet all of the regulation/requirements of the Alberta – Fair Trading Act – Alberta Regulation 75/2011.

Link: https://www.qp.alberta.ca/1266.cfm?page=2011_075.cfm&leg_type=Regs&display=html

MAINTENANCE REQUIREMENTS

To ensure the sustained competency of ‘Candidate’ or ‘Provisional’ and ‘National Home Inspector’ home and property inspectors, the NHICC National Certification Program includes an annual maintenance requirement. Maintenance activities include the following:

- **Continued industry involvement** – (service and/or committee work for a provincial association of home and property inspectors)
- **Courses, Training and Workshops** – (attendance at courses on technical and non-technical subjects related to home and property inspection)
- **Continued professional development** – (mentoring, field training, expanding professional knowledge)
- **Association membership** – (continued membership in good standing of a provincial association of home and property inspectors)
- **Home Inspector meeting attendance, etc.** – (with respect to educational content learning opportunities at association meetings)
- **Volunteer work in the capacity to further the NHICC National Certification Program** – NHICC Certification Council approved activities, such as examiners, mentoring, and other such related services deeds)
- **Occasional testing and/or retesting** where and when to be deemed in the “best interest of assuring consumer protection”
- **Fully comply with licensing regulations** where licensing and regulation to practice are in effect.

If an applicant has applied and notified the NHICC regarding a maternity, injury/disability or other compassionate leave within the last year, the NHICC may extend the timeframe - provided sufficient documentation is made available.

NOTE 1: Audits are conducted annually and require complete documentation to corroborate continuing education credits. Further information on this topic can be found in **NHICC CONTINUING EDUCATION POLICY & RENEWAL FORM**

NOTE 2: Variances are noted indicating the certification requirements that reflect the current situation applying to the applicable applicants’ place of business.

GLOSSARY

Appeal - A request by an individual for reconsideration of any decision made by the National Admissions Board related to his/her desired certification status.

Applicant – An individual that has applied to the NHICC for National Certification.

Background Requirement - A combination of personal background, education and experience relevant to the private home inspection occupation that is required for an individual to be part of the National Certification Program. The background requirement for home and property inspectors is linked to the tasks that make up the National Occupation Standards (NOS) for the industry.

Background Review - The process utilized by the National Admissions Board uses to determine whether

National Home Inspector Certification Council

or not an individual should be part of the National Certification Program, and if so, the appropriate stage within the program as defined in the Certification Process. Background Review compares an individual's personal background to the background requirements for the defined 'Stages' within the NCP.

Candidate – An individual that has applied and been accepted at the entry point into the NHICC National Certification Program. A candidate is also deemed as an individual that has not completed the National Home Inspector Exam, or the TIPR, or completed the required education credits and the required number of fee-paid home inspections.

Certification Process -All activities by which the NHICC establishes that an individual meets specified competency requirements defined within the National Certification Program, including application, evaluation, decision on certification, surveillance and recertification, use of certificates and logos/marks.

Competence - A demonstrated ability to apply knowledge and/or skills, and where relevant, demonstrated personal attributes, as defined in the certification program.

Examination - A mechanism which measures an individual's competence by one or more means. Means could include written, oral, practical and/or through observation. Examination is normally part of a background review process. Examinations should test for knowledge and demonstrated ability to perform the tasks defined in the National Occupational Standards (NOS).

Examiner - An individual with relevant technical and personal qualifications, competent to conduct and/or score an examination.

General Background - This includes all the courses and programs taken and completed by an individual in their lifetime, and their general work experience in all occupations. General background is not necessarily directly related to a specific occupation.

Home and Property Inspector (HPI) – The title of the occupation defined by a National Occupational Standard (NOS). Home and property inspectors conduct visual inspections of new and existing buildings and properties to assess the condition of the building or property. Based on the inspection, they provide observations, opinions and recommendations to their clients.

Mentor - A knowledgeable individual who helps other individuals to advance within a certification program.

NAB – (Acronym) National Admissions Board comprises a team of elected NHI's (National Home Inspectors) and "Public Members" that are charged with receiving, reviewing and the placement of the applicant into their appropriate level with the National Certification Program.

NHI™ - (Acronym) National Home Inspector - A stage in the National Certification Program for Home and Property Inspectors. (Changed to NHI – National Home Inspector™ – as of June 2011)

NCP - (Acronym) National Certification Program - The administrative body process that oversees all aspects of the certification program recognized at the national level. In order to become a 'National Home Inspector™', an individual must meet the requirements for individuals at this stage as defined in the certification program.

NHICC - (Acronym) National Home Inspector Certification Council - An independent, nationally incorporated non-profit certification body that oversees the National Certification Program and the certification process for Canadian Home and Property Inspectors.

NOS - (Acronym) National Occupational Standard - A document that defines the Blocks, Tasks and Sub-tasks that define a specific occupation. These blocks, tasks and sub-tasks should be understood and applied by competent individuals working in the occupation. The NOS is the basis for determining the background requirements within a certification program.

National Home Inspector Certification Council

Provisional – An individual that has applied and been accepted at the entry point into the NHICC National Certification Program. A provisional is deemed as an individual that has completed the National Home Inspector Exam, or the TIPR, or completed the required education credits and a required number of fee-paid home inspections. The provisional has not completed the full requirements to be a NHI.

Registrant – Classification includes candidates, Provisionals' and NHI's as part of the NHICC.

TIPR - (Acronym) Test Inspection with Peer Review - A method of verifying the competence of an individual performing home and property inspections. A test inspection consists of the following steps:

1. The individual undergoing the test inspection inspects a house with pre-determined, known defects
2. The individual prepares a written report and makes a verbal presentation on noted defects to a panel of home and property inspectors who are 'National Home Inspector™' who have been approved as TIPR Examiners by the NHICC and who have previously inspected the subject home.
3. The panel evaluates and grades the individual's report and presentation for compliance with standards of practice, standards of care, competencies as defined in the NOS, and a relevant code of ethics.

Verification - A means of proving, assessing and/or testing an individual's absorbed or learned knowledge. For example, a course examination is a way of proving that an individual has learned and benefited from a course or program.

National Home Inspector Certification Council

APPLICATION REVIEW - POINT SYSTEM

Pg	Note	Category	Points	Maximum Limits
1 of 8	1	Memberships & Designations	50 points per diploma, degree or trade certificate, member Degrees or diplomas not related to the home inspection industry are worth 25/per credential to a maximum of 50 points	100 points total
2 of 8	1	Degrees & Diplomas		
2 of 8	1	Trade Tickets		
3 of 8	1, 3	Formal HPI Training Courses (Education)	3 points per hour of <i>accredited</i> training/education 1 point per hour <i>non-accredited</i> training/education	450 points total
3 of 8	1	Mentored Field Training (Supervised by qualified inspector)	3 points per hour	150 points
4 of 8	1	Other – Training (Workshops/Seminars)	1 point per hour of technical training (Cannot be part of Formal Training Courses)	May supplement 150 deficit points
4 of 8	1	Informal Field Training	1 point per hour of training	50 points
5 of 8	1	NHICC National H.I. Exam (80%-84% grade)	200 points for a pass grade of 80%-84%	200 points
		NHICC National H.I. Exam (85%-89% grade)	225 points for a pass grade of 85%-89%	225 points
		NHICC National H.I. Exam (90% + grade)	250 points for a grade of 90% +	250 points
5 of 8	1, 2, 4	Home & Property Inspections	1 point per fee paid inspection (past 5 years)	500 points total
Notes to Point System				
<ol style="list-style-type: none"> Support documents (proof/evidence) required for page 1 through 5 of application for background review. Inspections are subject to random audit and report verification, which can include request for reports and list of inspections. If inspector is short in educational points but has worked five years and has passed the National H.I. Exam, he/she can earn: 80% on exam 200 points, 85% on exam 225 points, 90% or more on exam 250 points. Some NHICC approved mentoring could be substituted for inspections. (2 hours mentoring equal one inspection but minimum number of inspections would be 75). 				

Point System Definitions (Italicized words)

- The NHICC defines *accredited training* as training and education courses “recognized” as a course that has an exam component that is proctored by a “qualified” home inspector.
- Non-accredited training* and education courses are those courses that do not have a proctored exam.
- Where there is a course exam and it is not proctored by a qualified home inspector it is valued at 1.5 points per hour
- Seminars* and *workshops* are defined as short interval courses such as technical training that is less than 8 hours in duration. Seminars and workshops do not count as “Formal HPI Training Courses”.
- A *qualified home inspector* is currently recognized by the NHICC as training and education by a professional that has achieved the NCH (NHI) or RHI designation, and furthermore has a minimum of 5 years of home inspection experience.
- Field Training* comprises at least 50 supervised hours or 10 supervised home inspections during the program. At least 2 of these completed inspections are subject to peer review or professional review by individuals other than those involved in the supervision and practical training process.
- Mentor* or *Supervised* refers to a *qualified home inspector* recognized by the NHICC as training and education by a professional that has achieved the NCH (NHI) or RHI designation, and furthermore has a minimum of 5 years of home inspection experience.

National Home Inspector Certification Council

NHICC EXAMS

As of October 1st, 2011 there are two exams required to successfully complete the NHICC National Certification Program. The National Exam generally applies to specific jurisdictions that require mandatory exams as a requirement of licensing and/or regulation. The exam is also used in situations where the applicant's educational background is deficient.

1. The **National Exam** can be written after completion of application to the NHICC and receiving a letter of acknowledgement from the NHICC of your acceptance. Typically arrangements to take the exam can be arranged within 7-10 days.

The National Exam is a proctored exam that is independently facilitated.

2. The **TIPR** (Test Inspection & Peer Review) can be taken at any time after receiving acknowledgment of your placement in the NHICC National Certification Program. Ideally (but not in all cases) this may take place after successfully meeting all of the background requirements and upon official notification of eligibility. The TIPR primarily focuses on the practical skills of identifying significant conditions in a test home, completion of an interview with a team of examiners, and submission of the home inspection report.

The TIPR is one of the final stages to validate the home inspectors on site home inspection competency against the required Standards of Practice and NOS.

All fees required for exams must be paid in full either in advance/prior to the time of taking the exam.

1. NHICC NATIONAL EXAM

Demonstrating Knowledge of Home Inspections - "The importance of an independent national examination."

1. **Validity** means the examination is able to measure what it is supposed to measure – understanding and knowledge of the vocation.
2. **Reliability** is an index of how accurately the examination measures a candidate's skills. A test must be both valid and reliable in order for it to be considered a "high-stakes" exam for purposes of public protection.

The National Examination accurately assesses each candidate's competence to carry out the required duties of a home inspector.

What's covered in the National Examination?

The Content Outline includes:

- Inspection methods
- Reporting
- Building Systems, including exterior systems, structural systems, roofing systems, electrical systems, heating and cooling systems, insulating and ventilating systems, plumbing systems, interior systems, and fireplace and chimney systems
- Professional practice including Contract Law
- Defect recognition

How many questions are on the exam? How much time do I have? The National Examination contains 162 multiple-choice questions and 8 defect recognition photos. You are provided 3 hours to complete the exam.

When can I take the National Examination? The exam is available most any time. Advance registration is required and a proctor is provided with our online exam system.

National Home Inspector Certification Council

How much does the exam cost? The National Examination fee is listed on this web link:

<http://www.nationalhomeinspector.org/ApplicationFee.pdf>

It does not include applicable taxes. Proctoring fees are not included (if required).

How do I study for the exam?

There are many home inspector training companies and programs throughout North America. The NHICC does not review or endorse these programs; be sure to compare any curriculum you are considering to the Content Outline of the National Examination.

BC and Alberta inspectors need to take courses approved by educators approved by the applicable province licensing body.

Every question on the National Examination is referenced to a published source. This References List does not imply that study of all or only these materials is required to pass the examination.

NOTE: *The exam results will also be used as an applicant's diagnostic tool to identify and develop a training plan using a gap report. Included with the results of the exam will be a report identifying any knowledge/skill gaps, together with the options and/or recommendations to assist in addressing the gaps.*

2. TIPR (TEST INSPECTION WITH PEER REVIEW)

Demonstrating Practical Skill Competency This skill-based TIPR exam tests a home inspectors expertise and practical knowledge, validating competency in performing an actual home inspection. This includes the examination of 3 distinct categories noted below.

In the case of a selection procedure for measuring knowledge, the knowledge being measured is operationally defined as that body of learned information which is used in regular day-to-day home inspection practice and is a necessary prerequisite for observable aspects of work skills essential to the occupation. A home inspector can typically acquire the knowledge and skills needed to successfully complete the TIPR exam through on-the-job experience, recommended training courses, and/or through a solid understanding of home inspection reference materials.

All applicants will be tested in the following skill sets:

1. **Inspection knowledge and skills:** The HPI - National Occupational Standards identifies the tasks that practitioners must actually perform in the workplace.
2. **Reporting:** Both oral and written reporting skills are the tangible evidence (finished products) of the results of a home inspection. Applicants are encouraged to utilize their own reporting system for the submission of the written inspection report.
3. **Standards of Practice:** Applicants are benchmarked against the ASHI Home Inspection Standards of Practice and Code of Ethics.

TIPR OVERVIEW

The Test Inspection and Peer Review (TIPR) process is open to all home inspectors in Canada. Its purpose is to test, validate and improve inspection and communication skills and assure confidence in the essential services provided to consumers. Home inspectors seeking National Home Inspector recognition are required to fulfill the TIPR requirements in order to advance in the National Certification Program. There are 3 distinct categories in the review process.

1. **Onsite Inspection:** This is a realistic home inspection. In the test inspection component the applicant is given time to inspect a pre-selected house as if he/she were working for a fee paying

National Home Inspector Certification Council

client. The applicant independently conducts the inspection of the peer review house at the specified start time. The methodology of the inspection and use of inspection tools or aids are left to the choice of the applicant.

2. **Peer Review:** Later, after inspecting the house the applicant presents the inspection findings to a peer review panel of Examiners. The applicant is expected to identify all the “significant” major deficiencies and demonstrate sound technical knowledge and communication skills. The Examiner will ask questions and test the participant’s communication skills on the home inspection completed.
3. **Inspection Report Review:** The applicant is required to provide verification of their inspection reporting skills through completion and submission of an inspection report. Applicants are free to use any report system for this submission. The report may be handed over to the Examiners or mailed within 48 hours of completion.

Note: The test house will be inspected by a panel of qualified home inspector Examiners prior to the applicant reviews, in order to establish a defined level of mandatory “significant” deficiencies and to assure quality for benchmarking purposes for the inspection review process. [Email:nhicc1@gmail.com](mailto:nhicc1@gmail.com)

Scheduling Exams To schedule an exam the applicant must contact the NHICC to register prior to the date an applicant wants to take the exam. Applicants are required to complete a Background Review Application Form and review by NAB (National Admissions Board).

There is no guarantee of a set time or date for the TIPR Exam until all of the required forms are properly completed. Typically Test Inspection with Peer Review is conducted in an area when there are sufficient numbers to accommodate a full day of examinations.

Rescheduling an Exam If you have a scheduled a date and time for your examination, and you need to reschedule the TIPR the applicant must contact the Chief Examiner and/or Deputy Examiner at least 2 weeks prior to the examination. No refunds are offered after the above two week rescheduling date.

Conflict of Interest The TIPR program is conducted as an open and fair process. If a “conflict of interest” arises the applicant may request another Examiner to conduct to review prior to the exam. Likewise, an Examiner also is required to declare when or if a conflict arises in the TIPR process.

Exam Results Most questions about scores or exam results cannot be answered on the date of the examination. Applicants will be advised of their successful or non-successful status based on the TIPR evaluation by your on-site Examiner by the Chief Examiner. Typically Examiners’ are unable to tell applicants the final results of their score over the telephone or by email. However, they will help an applicant get that information if it is not released in a timely manner.

NHICC TIPR - CHANGES April 2010

Provide a TIPR A (Alternative - one on one) for those applicants known and proven to be at a distinct disadvantage due to distance (over 500 km from the closest TIPR site) such as a practitioner operating in a remote region.

***Note:** The previous technical questions are removed from the current TIPR examination process and are replaced by the new - National Exam.*

TIPR – Q & A

Can a TIPR be rescheduled?

If a candidate has a scheduled date and time for the TIPR, and there is a need to reschedule the TIPR, the candidate must contact the Chief Examiner/Deputy Examiner at least 10 business days prior to the

National Home Inspector Certification Council

TIPR. Any cancellations after this date is subject a fee charged for rescheduling a TIPR without due notice.

Will I receive the results of my TIPR on the Test Day?

Most questions about scores or TIPR exam results cannot be answered on the date of the TIPR. Applicants will NOT be advised of their successful or non-successful status based on the TIPR evaluation by your on-site Examiner; that information is released by the Chief Examiner. Final results will not be released until all documents are received, reviewed and verified by the Chief Examiner.

Generally the results of the TIPR are communicated in writing by the Chief Examiner. The results will indicate if the candidate was successful or not. The “pass grade” is achieving 80% or better, with the heavily weighted elements being accuracy in reporting significant conditions and providing a report that in SOP (Standards of Practice) compliant.

“Significantly deficient” is defined as *“those systems and components inspected that, in the professional judgment of the inspector, are not functioning properly, significantly deficient, unsafe, or are near the end of their service lives.”*

What if I have to retake my TIPR?

If a candidate does not pass their TIPR exam, the candidate must wait until the next offering is available in the candidates’ provincial area before another effort may be scheduled. A TIPR retake fee is required to be paid to be relisted for a TIPR retake.

Can I appeal my TIPR?

If a candidate believes that the results of the exam are not valid; the candidate may file an appeal with the TIPR Chief Examiner, along with payment of required fee to the National Registrar.

1. *An appeal must be in writing.*
2. *The candidate’s signature must be on the letter of appeal.*
3. *The candidate must mail, fax or email it - (with signature).*
4. *The candidate must provide complete documentation clearly identifying the grounds to substantiate the appeal. Simply failing a TIPR is NOT a valid reason.*

An appeal is defined as a written petition requesting a review and a re-evaluation of a specific Test Inspection with Peer Review (TIPR). An appeal must be made with 10 business days after completing a scheduled TIPR exam or receipt of the score on the TIPR exam.

An appeal process is noted below for a candidate to submit an appeal of the TIPR results.

An appeal fee is sent to the National Certification Program National Registrar. There is a \$226.00 fee charged to submit an appeal. The appeal documents must provide evidence to support the appeal claim. The appeal must be sent to the Chief Examiner. The Chief Examiner will primarily evaluate the grounds for an appeal and where necessary implement the process to address those verifiable issues documented.

1. The candidate submits a notice of appeal to the NHICC National Certification Program Office along with the filing fee. Non-payment will delay or prevent processing of the appeal application.
2. The TIPR Chief Examiner will review/accept and evaluate the merits for the appeal.
3. The Chief Examiner checks the appeal for completeness, documentation and filing fee payment. The Chief Examiner acknowledges receipt of the appeal to the participant within 15 business days of its receiving, advising that the appeal is under review. If the appeal form is not filled out completely it is returned to candidate for completion and re-submittal. Failure to resubmit within 20 business days is grounds for closing the file.

National Home Inspector Certification Council

4. The appeal is logged and forwarded to the Examiners for review, with a copy sent to the chair for committee review. Based upon the nature of the appeal the Chief Examiner will: submit a response back to the candidate or, begin an In-Committee analysis (if warranted).
5. Responses to an appeal that can be resolved immediately will be responded to within 20 business days of receiving written appeal.
6. A response (and the timing) for an appeal requiring In-Committee analysis or other detailed analysis are dependent upon the complexity and evaluation findings.
7. There are no further rights for an additional appeal after findings are released.

Address for Appeals

NHICC
c/o: 396 Old Tecumseh Rd
Windsor ON, N8N 3S8

Email: <mailto:nhicc1@gmail.com>

General Question - Is photo I.D. required for the NHICC Exams?

Photo I.D. is typically required and used to verify a candidate either/and/or by the “proctor, house sitter and/or examiner”.

EXAMINER FORMS Standard forms utilized in the TIPR process are provided below for your information.

National Home Inspector Certification Council

FORM 1: PARTICIPANT - DISCLAIMER AND WAIVER OF LIABILITY

This Disclaimer and Waiver of Liability Agreement are executed by the applicant

_____ Residing at _____

and the National Home Inspector Certification Council (NHICC), and the Examiner(s) acting on behalf of the NHICC - Certification Authority in reference to the applicant's Test Inspection with Peer Review (TIPR) for the National Certification Program.

1. Before any person is granted **National Home Inspector** designation, they are required to meet certain qualifications. One of the requirements is to conduct an inspection, following their normal routine; of a residential property which has been previously inspected by the Peer Review team consisting of TIPR Examiners, certified home inspection members or officers.
2. The applicant recognizes that there are **potential risks and hazards involved** during the inspection of any property including the house made available to them for the TIPR process.
3. The applicant acknowledges that through experience the Peer Review team and TIPR Examiners may be more familiar with these risks and hazards and therefore may be better able to avoid any injury as a result.
4. The applicant acknowledges that the Peer Review team may detect some of these risks and hazards in the house that the applicant is to inspect but cannot disclose these risks and hazards because the purpose of the Test Inspection and Peer Review is to determine the applicant's ability to detect these same risks and hazards.
5. The applicant agrees to waive any and all claims they may have against NHICC, the Certification Council, its members, officers, and the TIPR Examiners as a result of the inspection the applicant will perform.
6. The applicant also agrees to hold harmless NHICC, the Certification Council, its members, officers, the TIPR Examiners, and the property owner from any claims of a third party for injuries or damages claimed as a result of their inspection, including all costs, attorney fees, and charges in connection with any defense.
7. The applicant acknowledges the right of an appeal if there are "reasonable" grounds to support a hearing by the Board of Examiners.

COMMENTS:

National Home Inspector Certification Council

FORM 4: TIPR - Home Inspection Report Verification Form

NOTE: This form is generic and intended to determine if the home inspection report meets the ASHI reporting common technical requirements. It may also be used to verify a report of a “National Home Inspector™” in cases of an allegation of error or omission.

Each category is valued at 1 point, except for #4 which is valued at 5 points. Total = 15 points

Applicant name:				
Phone #				
E-mail				
Inspection Address				
Inspection Date				
Report Type				
Checklist			Yes	No
1. Does the report describe the scope of limitations of the inspection?				
2. Does the report include the “systems” and “descriptions” listed in the SOP?				
3. Does the report identify components that could not be inspected?				
4. Does the report identify system and components that are “significantly deficient”? <i>Note: must identify 80% in this category. (Scoring 5 points maximum)</i>				
5. Does the report identify system and components that are “near the end of their service life”?				
6. Does the report provide “recommendations” to correct, further investigate or monitor the reported deficiencies?				
7. Does the report highlight the important deficiencies?				
8. Are the recommendations consistent with the conditions observed?				
9. Is the report legible and reasonably complete?				
10. Does the report provide the client with a clear understanding of property conditions to make an informed (purchase) decision?				
11. Does the report provide general descriptions of the property – buildings, storey, approximate age, current use, etc?				
Acceptance				
Is the report acceptable? Note: The report MUST have all of the above questions answered YES for the report to be judged “acceptable”.

RECOMMENDATIONS FOR SELF-IMPROVEMENTS: (FEEDBACK)

National Home Inspector Certification Council

NHICC SUPERVISED FIELD WORK/MENTORING

The Mentor program (Supervised Fieldwork) was developed with the purpose of assisting applicants, Candidates and Provisionals' in the NHICC National Certification Program to obtain guidance and practical on-site home inspection experience by those qualified home inspectors recognized as meeting the detailed requirements listed below to take part in this program as "mentors".

NOTE: Certain requirements for the provinces of British Columbia & Alberta apply where regulations must be met in lieu of the requirements listed below.

Mentor Requirements

Mentor defined: A mentor is defined by the National Certification Program as "a trusted counselor, teacher or expert. Mentors share their experiences and their knowledge regarding the occupational standards, experience and professionalism to improve a (mentee's) candidate's competence and confidence in completing a home inspection and inspection report.

The mentor inspector must meet all of the following requirements:

1. Be a National Home Inspector™ in good standing in the National Certification Program or be pre-approved as noted in requirement item #3.
2. Have completed a minimum of 5 years of home inspection experience/ and/or minimum of 750 fee paid home inspections.
3. Must be able to objectively assess and provide feedback to others.
4. Mentors must be – trustworthy, nurturing, have integrity, confidential, positive
5. Must apply and be pre-approved by the NHICC.
6. Must complete the mentoring obligations as listed below in this document.

Mentoring Obligations

The mentor inspector must complete the following obligations:

1. Provide a letter or letters of reference attesting to the number of mentored inspections and/or hours completed by the candidate.
2. Provide the address of the home(s) inspected in the letter(s) of reference attestation.
3. Attest and attach one completed Parallel Inspection Standards Compliance Checklist for each and every candidate.
4. The mentoring fee must be reasonable and is recommended to not exceed \$100 for a home inspection.
5. Supervised field work must be completed under the direct supervision and management of the qualified "mentor".
6. Either the mentor or the candidate inspector may provide the inspection venues. These do not have to be paid inspections, mock inspections may be used.

Candidates Obligations

The candidate inspector must complete the following obligations:

1. Act with professional courtesy and respect at all times to the "mentor" and property owners.
2. Follow the rules of conduct and behaviour required by the "mentor".
3. Must adhere to all safety standards at all times. Additionally, the candidate will be personally responsible for any damages or injury the candidate causes at the inspection site.
4. Must complete home inspection reports that meet the current ASHI-CAHPI Standards of Practice. Reports deemed to be not in compliance with the Standards of Practice will not count for the final 70% of the required 50 hours or at least 10 houses inspected and reviewed under guidance of their mentor.
5. Mandatory submission of two home inspection reports completed by the candidate for audit and review by the NHICC Report Verification Committee.

Materials Available

ASHI Standards of Practice and Code of Ethics – A copy of this may be obtained from the ASHI websites.

National Home Inspector Certification Council

Carefully review the entire document, taking special care to read and understand the Glossary of Terms.

Supervised Field Work Compliance Checklist – A copy is attached and is available from the NHICC National Certification Program website. Note this is the same form used to validate a TIPR (Test Inspection with Peer Review) home inspection report.

Mentor Credits

Supervised field work qualifies as credit toward the required number of inspections related to onsite inspection and field training hours towards field inspection requirements. Supervised field work will qualify for 1 CEC per inspection for the National Home Inspector supervising the inspection. A maximum of 10 CECs per year may be obtained by mentoring.

Note

- (1) A mentor fee is negotiated between the National Home Inspector and the candidate/provisional for this service.
- (2) Request a copy of the Supervised Field Work Standards Compliance Checklist

MAINTAINING YOUR NHICC - NHI

In order to maintain your designation and registrant (member) in good standing you must complete a minimum of 20 hours each year of any of the following:

- Continuing education - technical courses or workshops directly related to home and property inspection
- Continuing education - law, ethics, business practices, communication, conflict resolution, or other relevant subjects
- Activity - service to the NHICC National Certification Body
- Activity – teaching a formal home inspection or related course
- Activity – mentoring or providing supervised field training
- Activity – attending a H.I. conference, workshop, seminar
- Activity – maintaining membership in a related professional organization
- Required - payment of annual maintenance fee (due) July 1st each year
- Required - complete one “Test Inspection” every five years
- Mandatory - compliance with the ASHI and/or CAHPI Code of Ethics and Standard of Practice
- *Where applicable - maintain specified insurance coverage where mandatory by the authority having jurisdiction (example - licensing requirements in British Columbia – BPCPA, regulation in Alberta)*

Maintaining Candidate Status – after 3 years, Candidates that have not become NHICC-NHI certified must reapply to retain their Candidate status.

NOTE: A Provisional and NHI participant in the NHICC certification program is required to maintain currency by ongoing annual maintenance and renewal reporting. Participants that fail to do this will be removed and relinquish their certification.

National Home Inspector Certification Council

CONTINUING EDUCATION POLICY & RENEWAL FORM

Statement of Purpose:

1. Establish a Continuing Education Credit (CEC) criterion, recognizing the importance of continuing education for practicing professionals.
2. To enhance the NHICC National Certification Program credibility in the industry, by maintaining a set standard for ongoing life-long learning through education and renewal.

Applies to:

Compliance with this policy is mandatory for all National Home Inspectors™.

Program Details:

1. Requires the submission of 20 CEC every year in order to maintain status as a National Home Inspector™.
2. A carryover of 10 CEC per year from the previous year is allowed. Example: 30 CEC submit for current year; 20 applied to current year renewal and 10 carried forward for the next year.
3. A shortfall of 5 CEC per year is permitted only for the current year. The shortfall will be added to the next year's requirement. Example: 15 CEC submitted for current year; 25 will be required for the following year.

When to and how to Submit:

1. CEC must be submitted at the same time as annual maintenance fee (by June 30th) every year.
2. Cheques/payments are made payable to the NHICC.
3. The CEC form, along with the annual maintenance fee invoice, will be sent to National Home Inspectors no later than June 1st. Certificate Holder must return their payment and CEC form within 30 days.
4. Please do not submit your CEC documents of proof until you are requested to do so. The National Certification Council will not accept or file CEC material submitted prior to membership renewal period. All material sent prior to this will be returned.
5. Types of proof required are defined in the right column of the claim form and must be attached to the CEC form when requested. Renewal will not be finalized without the supporting proof documents.
6. Failure to comply and provide satisfactory CEC documentation and or proof when audited and required the maintenance fee will result in suspension.
7. CEC will not be accepted without payment of the annual maintenance fee and the fee will not be accepted without specifying your claim required on the CONTINUING EDUCATION CREDIT & RENEWAL FORM.
8. The National Certification Council will consider an extension for special circumstances. The National Certification Council must be notified in writing to obtain "official" approval for such an extension.
9. Wallet cards will be issued every year to each certificate holder upon receipt of their payment and CEC.

What counts as a Continuing Education Credit?

To maintain your National Home Inspector status, simply complete CONTINUING EDUCATION CREDIT & RENEWAL FORM. When required provide evidence of your claim along with the annual renewal fee. Submit supporting data for the required Certificate Education Credits (CEC) yearly.

There are many ways to earn CEC. The following are a range of example activities, as well as the amount of education credit each activity is worth.

1. Attending an Educational Short Course, Seminar or Technical Conference related to home/building inspections¹
2. Attaining additional certifications³ - example: building code classes, WETT certification, IAQ, commercial inspections, etc.
3. Attending the education seminars² at related Industry Trade Shows and association meetings with at least 1 hour of educational content

National Home Inspector Certification Council

4. Teaching a home inspection related Short Course or Seminar¹
5. Presenting and publication activities related to a Technical Paper or part of an Inspector Seminar, Inspector Conference, published newspaper or magazine.
6. Teaching an inspection course at a University, College or Technical Institute¹ (Includes “accredited” training)
7. Home-study activities³ approved by NCP – Continuing Education Committee approved providers
8. Education offerings determined by the NCP Continuing Education Committee (Credits vary – see published list on the NCP website – note these must be pre-approved and are subject to periodic change)
9. Volunteer time spent on services for the NCP such as examiners, council *members*, board *members*, committee(s), etc. (Maximum of 5 hours credit)
10. Mentoring – approved inspector field training (Maximum of 10 – 1 hour per mentored inspection)
11. Field Supervision – approved field training (Maximum of 10 – 1 hour per mentored inspection)

¹An hour of education delivered is worth 1 CEC (credit).

²A copy of the certificate or letter of attendance is the required documentation.

³A copy of the certificate of completion is the required documentation.

What does not count as a Continuing Education Credit?

1. Attending industry trade shows, and not attending any seminars/educational courses offered at the event without valid documentation to corroborate your seminar/education portion attendance. Attending a trade show counts as a ½ hour credit only.
2. Home Inspector meetings – AGMs, particularly heavily weighted with business and administrative portion of agendas with primarily discussions sessions that contain no education portion delivered during that meeting.
3. Education credits, courses or training previously claimed in your application.

What are the common problems encountered in processing CEC?

1. Lack of supporting documents.
2. No documentation to support your claim as “continuing education”.
3. Assuming that another association already has it on record. Record keeping and the rigor by others varies. The NHICC requires and maintains those records that provide its own evidence to validate an audit and to assure its own accountability and not that of others.
4. Failing to clearly recognize the claim period for the CEC. Example - the 2011 renewal requires that upon renewal that you report your educational activities earned/achieved between July 1, 2010 and June 30, 2011 count for your renewal in June 2011.
5. Your renewal has a shortfall of educational hours.
6. You have valid documentation to support a written request for extension such as a medical condition. Such exceptions will normally be upheld as a special or extenuating circumstance.

National Home Inspector Certification Council

Only include CE credits earned between the dates of January 1, 2010 to December 31, 2010.
Provide a copy of your Continuing Education documentation for verification. No documentation = No Credit Provided.
Please sign the document below.

SIGNED STATEMENT FOR CEC & RENEWAL

I, the undersigned, hereby declare that the information contained in this renewal and CEC declaration is true and that I will use most recent editions of the Standards of Practice and Code of Ethics as a guideline to performing home inspections. Furthermore I acknowledge that failure to produce the required relevant documentation to support the above claim can jeopardize my "National Home Inspector" status. I further agree to hold the NHICC harmless in the event of a claim or professional practice proceeding arising out of the performance of service to clients. I authorize NHICC the authority to investigate and confirm the information declared by me in this application.

Signed this _____ **day of** _____, **20**_____

National Home Inspector Certification Council

OBLIGATIONS OF REGISTRANTS

All “registrants” shall comply with the following requirements:

1. Mandatory compliance with the Standards of Practice. The Standards of Practice shall be the latest version of the provincial Standards of Practice in which the inspector practices.
2. Mandatory compliance with the Insurance requirements (where applicable).
3. Mandatory compliance with the Code of Conduct, Professional Practice and Conflict of Interest Guidelines, as set out in the Bylaws, Policy & Procedures. Non-compliance is subject to disciplinary procedures.
4. Maintain annual certification fees in good standing.
5. Completion of any Mandatory Upgrading Requirements and Continuing Education Requirements, except for Applicants and Retired Certificate Holders.
6. In the event of written complaints which are not satisfactorily resolved, the registrant may be suspended from inferring any affiliation with the NHICC.
7. Act in good faith to all, uphold the integrity and reputation of the profession, respond promptly to complaints.
8. Always provide a written contract to the client and a written/printed report of the system(s) that were inspected.

Registrants are required to exercise the practices in the profession with competence and diligence, upholding their duty of care to their client and also to the best interest of the NHICC.

PROFESSIONAL PRACTICES

The “ethics” of the NHICC and its “registrants” and contracting agents are paramount and must be upheld to maintain a positive public image and good name. Those who contravene the **Code of Ethics**, and/or do not adhere to the **Standards of Practice**, and/or advertise illegally will be disciplined. Complaints from the public or other “registrants” will be reviewed by the Professional Practices Committee.

The committee’s mandate is focused on investigating complaints related to conduct and competence of Registrants, and other matters related to professional practices. This mandate does not include mediation of individual complaints, imposing settlements, or assisting in civil proceedings.

CONFIDENTIALITY & LEGAL MATTER

The NHICC is also dedicated to the establishment of an atmosphere of respect and appreciation for the rights and responsibilities of all those associated with the National Certification Program.

In common with all other individuals in Canada, registrants enjoy rights under the Human Rights Code, the Charter of Rights and Freedoms and the Freedom of Information and Protection of Privacy Act.

A National Home Inspector shall be a person that meets the highest stage of certification in the NHICC National Certification Program. In order to become a National Home Inspector™, the individual must meet the requirements for individuals at this stage as defined in the certification program.

A Candidate shall be a person that has been accepted into the entry level of the NHICC National Certification Program. The Candidate is required to complete a National Home Inspector exam of the National Home Inspector Certification Council upon acceptance of their application into the National Certification Program.

National Home Inspector Certification Council

Registrants (members) have and may exercise their general rights as citizens, subject to the rules, regulations and discipline of the NHICC. They also have the right to the enjoyment of a safe learning and work environment and fair treatment in accordance with the rules, regulations and discipline set forth by the NHICC.

The NHICC and the “registrants” of the National Certification Program is a community of diverse races, creeds, cultures, and affiliations. We are committed to promoting and supporting a workplace and learning environment where everyone can work and study in an atmosphere free of harassing or demeaning treatment.

We value each “registrant” of our community for her or his individual and unique talents, and applaud all efforts to enhance the quality of our lives. We recognize that each individual’s effort is vital to achieving the goals of the NHICC. We strive to maintain a climate of mutual respect.

We look forward to hearing from you soon!

FURTHER INFORMATION MAY BE OBTAINED IN THE NHICC POLICY MANUAL

The Policy Manual is available upon request to all registrants in “good standing” upon written email request to - info@nationalhomeinspector.org
