## Topic: Agricultural Housing Audits

### General Information

This course primarily focuses on the review of temporary housing often assigned for foreign agricultural workers. Periodic reviews are required to be conducted prior to housing occupancy for the workers. There are several recognized forms to be utilized and completed as part of the occupancy requirements. These are typically completed for the “owner” of the agricultural setting.

By taking this course the participant will become familiar with the general requirements to successfully complete this type of housing review. The scope of work is not your typical home inspection thus we refer to these as an “audit” reviewing specific requirements to complete the inspection form(s).

Upon successful completion the participant will receive a certificate for the course completion.

### Course Delivery

The NHICC continuing education courses are offered in an online format, which has the benefit of being highly flexible and mobile - allowing you to access content from any mobile, tablet or computer with an internet connection.

### Online Format

The course is offered by home study along with mandatory direct instruction via webinars. The webinars comprise of 3 weeks of facilitated direct instruction and the 4<sup>th</sup> week is the final exam. This time includes not only the completion of the reading and discussion activities, but also the interaction with other students and preparation for the final exam.

Online courses require each student to:

- Read the course material,
- Participate in discussion activities, complete internet research and/or explain best practices and,
- Complete the online exam.

And each student is encouraged to:

- Share your experience, resources and concerns with our on-line community (when appropriate),
- Read and respond (when appropriate) to other students’ posts,
- Complete a Q&A session regarding the topics covered,
- Ask questions of the facilitator or of each other.
